Mr. Kenton Pass  
The Saw Horse Company  
120 North Tejon Street  
Suite 201  
Colorado Springs, CO 80903

Dear Kenton:

Thank you again for the great job you and your team did on our bedroom/bath remodel this past summer. We've been living with the finished product for about three months now, and we're still very pleased with our new master suite and powder room.

From the beginning of our project it was clear that The Sawhorse Company operates in a very professional manner. There were no surprises—you spelled out in advance exactly what we could expect at every stage of the project, and what would be expected from us. As the work progressed we were kept well informed about the construction schedule, problems, triumphs, and occasional minor miracles. When frustrations did arise (as they always will in a project of this scope) you dealt with them quickly and fairly.

Our job foreman, Alex Steadman, deserves a special mention. Alex "bossed" our job on a day-to-day basis with quiet efficiency and consideration. He was a pleasure to have around, and he can do everything well!

Most of all, we were impressed by the "do it right" attitude that seemed to guide everyone we dealt with from The Sawhorse Company. Your passion for building is apparent. We appreciate that, and we'll be calling on you again when it's time for Phase II.

Yours sincerely,

*Pam + David Ament*
