July 27, 2007

Dear Kenton,

We wanted to write a letter thanking you for your work in our home, and want you to use this letter as a referral with potential clients.

We hired Kenton in the summer of 2007 to do some remodeling work on a home we had just purchased. The second floor consisted of banisters throughout, so that in essence you could see the upstairs from almost any part of the downstairs. This would not have been a problem normally, but we have an autistic son who likes to jump from high places. Clearly this was going to cause a problem, and our realtor insisted that any work done would be a disadvantage when it was time to sell.

Fortunately for us, we found Kenton. He and his team built walls upstairs to void any risk of our son hurting himself. The house looks beautiful and no one would ever know that the walls were not an original part of the home.

Kenton was so easy and friendly to work with. Most of the remodeling happened while we were still living in another state, however Kenton took great care to make sure everything was done just the way we had discussed. The work was beautiful, the team was friendly and respectful and Kenton was always accessible and helpful. We have Kenton to thank for a beautiful and safe home.

We highly recommend using Kenton Pass and Company for any of your future projects. If you have any questions, please feel free to give us a call.

Sincerely,

Marisa Bentley
