June 20, 2000

To Whom It May Concern:

In June, 2000 I engaged the Sawhorse Company to replace my concrete driveway, front sidewalk and construct a new stepped sidewalk to the front entry of my residence.

I am well pleased with the results of the job, specifically:

- I found Mr. Kenton Pass to be very communicative, direct, honest, and reliable. He completed everything promised in a timely and professional manner;
- The quality of the work was very good, including clean-up and attention to details and potential problems that arose as a result of the job;
- The price was fair and within market norms;

I would give this Company and Mr. Pass first crack at any future remodeling work that I would want done. I recommend the Sawhorse Company to anyone looking for a reliable general/remodeling contractor.

Sincerely,

---

Tony Cichello
