To whom it may concern:

I highly recommend Kenton Pass and Company. In fact, I have already done so to some of my coworkers. Kenton was exceptionally helpful and friendly during my kitchen remodeling work. He was always prompt to answer my questions or to address any issues or changes that arose during the process. Kenton and his subcontractors worked quickly and efficiently, finishing the job on schedule. More importantly, they paid close attention to details and quality. They did an excellent job keeping the area clean to minimize the overall impact of the kitchen remodeling. They also worked well with our pet situation (2 cats and 1 dog).

By far one of the best experiences during this process was quickly coming to realize that I didn't have to stress about the details of the job. As an engineer, I am a very detail-oriented person, but I soon found that Kenton and his subcontractors were doing a very thorough job with minimal guidance.

I am extremely pleased with my new kitchen and would not hesitate to use the services of Kenton Pass and Company for future work.

Sincerely,

Michael Fender
