Dear Kenton and Lidi,

Rita and I would just like to thank you for the wonderful way our remodel turned out. Everything is beautiful and it looks like it has always been there. Your attention to detail helped achieve these results, and we appreciate it very much.

All of the people who worked in our house were professional and took great care to not only do quality work but also to protect our existing home and belongings.

We certainly consider our experience positive (for the most part!), and would recommend you without hesitation.

Thank you again.

Sherry Hill
