Kenton Pass
708 N Tejon Street, Ste 200
Colorado Springs, CO 80903

After inheriting a 1922 Spanish-style home, the decision was made to make a much needed major update to the existing rooms, relocate the outdated, small kitchen and add additional living space.

Remodeling a home is a major project with many aspects to consider, and being a single woman with no experience in the building process, I started my search for a competent contractor, who would calm my worries, and present me with the home that I had dreamed for.

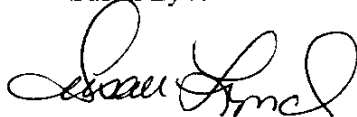

Finding recommendations wasn't the problem, finding the right person was. However, it wasn't long before the same name kept popping up: Kenton Pass-a man who was experienced with older remodels. Our meeting was direct and to the point, and I felt confident afterwards that he had a true understanding of what I was looking for.

The process was complicated, with many obstacles along the way; however, Kenton was always there. He was available to answer my questions, calm my worries, and solved any problems that occurred.

The sub-contractors that were used on the job were professional, clean on the job and polite. They always arrived on time and could be depended upon to do they job that they were hired to do. Even at the end of the job, when all the "little things" were needed to be finalized, the subs were there to complete what they started. If Kenton had not the experience in the building process, the sub-contractors could have been a real problem, and for this alone, I am extremely grateful for the job that Kenton completed.

I would not hesitate in working with Kenton again, and I highly recommend him for anyone who is considering a home remodel in the future. The man is a true professional.

Susan Lynch

A handwritten signature in black ink, appearing to read "Susan Lynch". The signature is written in a cursive, flowing style with a large initial "S".
