To Whom it may concern:

It gives us great pleasure to write this letter of recommendation for Kenton Pass and Company.

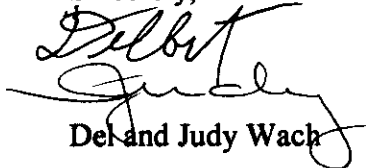

After many agonizing months of discussing a kitchen remodel we were introduced to Kenton and immediately felt that we were in good hands. From the first introduction we felt that Kenton was a man of integrity and could be trusted. He proved to be just that. We had heard so many horror stories about remodels gone wrong and were reluctant to begin a project. Kenton set our minds at ease and made the process not only pain free but almost enjoyable.

The work began on the day scheduled and continued to be on or ahead of schedule throughout its entirety. Kenton contacted us every working day and told us what to expect. He answered our questions and concerns professionally but in terms we could understand. He was always available. The work site was always left clean. The subcontractors were all professional and completed the work in a timely manner and the project was completed under the original "time schedule".

Oh, how we love our new kitchen! It is beautiful and changes the "look" and function of the entire living space. Our remodel has surpassed our dreams!

We highly recommend Kenton Pass to anyone contemplating a remodel.

Sincerely,

A handwritten signature in black ink, appearing to read "Del and Judy Wach". The signature is written in a cursive style with a large, sweeping flourish at the end.
